REFUGEES SICK IN OHIO

New York, Sept. 18.—Official report for Monday and Tuesday, Sept. 18, 1905. Deaths, 1,353.

The number of new cases is especially low for Monday and Tuesday, but it is not probable that the reason for the next week or so will be pretty low. Tallahassee reported ten new cases, one death. Terre Bonne seventeen new cases, one death.

YELLOW JACK IN OHIO.

Seventy of the 180 Refugees Now in Hospitals.

Columbus, O., Sept. 18.—C. O. Probst, secretary of the state board of health, who has returned from Cincinnati, reports that seventy of the 180 refugees from the south are in hospitals there and three of them are undoubtedly cases of the fever and three others have pronounced symptoms of fever. A few of them have gone to Chicago, but they have not been allowed to scatter throughout Ohio as reported.

ROOSEVELT'S VISIT.

President Due in New Orleans the 12th of October.

New Orleans, Sept. 18.—President Roosevelt's telegram to Mayor Behrman, announcing his intention to come here as planned on Oct. 24 if the people of Louisiana and New Orleans desired to do so, subject only to the quarantine regulations of other states, has received an additional indication of the president's sympathy with the people of the state and the city in the fight against fever. There is no doubt of the widespread desire here to reciprocate the president's assistance, but the mayor will be unable to make reply until he has considered the whole subject of the quarantine regulations with the local committee in charge of the reception of the president, and with Governor Behrman, who is representing the state in the matter. Dr. White, who is in charge of the fight here in behalf of the government, will be consulted. It is the opinion of the authorities that the fever will practically have disappeared before the president is due, but there is some doubt as to whether the adjoining states and country parishes of Louisiana will be willing to lift the quarantine until further guarantee is assured that there is no further danger from the transmission of the disease.

One Death at Vicksburg.

FIGHT TO BITTER END

Reformers Going After the Rotten Republican Organization in City of Brothly Love.

Philadelphia, Sept. 18.—The City party, the reform body which is opposed to the regular Republican organization of this city, and the Democrats held their primary elections tonight to select delegates who will nominate party tickets in opposition to the Republicans. Delegates were elected in nearly every election district of the city by the City party, and they will meet in convention on Wednesday morning to select delegates for corner, street and city committee. The delegates will go to the convention unopposed. It is probable that at least eight names will be presented for the four places. The delegates selected by the City party will be the same as those who were elected at the convention which will be held Wednesday night, and are unopposed. Some of the Democratic leaders are opposed to placing a ticket in the field, but favor the endorsement of the ticket to be named by the City party. The Republican city committee at its meeting today decided to wage a most active campaign for the election of a ticket named last Saturday. The candidates of the City party will visit every door of the city and make addresses. It is probable that Mayor Weaver will take the stump in the interest of the City party candidates.

Enthusiastic Meeting Appoints Committees to Solicit Funds to Rebuild Shops.

(Special to The Herald.)

Logan, Sept. 18.—The largest mass meeting ever held in Logan convened here tonight for the purpose of discussing the matter of raising money to assist in rebuilding the burned Agricultural college shops. The court house was unable to hold the throng. B. F. Riter of the Commercial club was chosen secretary and Rev. Mr. Norfleet secretary. Addresses were made by Senator A. G. Barber, President W. J. Kerr, Trustee E. R. Owen and others, which aroused great enthusiasm.

There was a unanimous expression in favor of helping the college. President Kerr stated that L. L. Nunn of Provo had voluntarily offered to head a subscription list with \$1,000, and many others from other cities had come to the front with generous offers.

Herschel Bullen, Jr., speaking for the state board of examiners, said he was sure the members were willing to appropriate the whole amount to rebuild the shop if necessary, but would appreciate any help that should come from local citizens.

A general committee of fifteen was appointed to solicit subscriptions and turn in a report tomorrow night so that the board of examiners may know the exact amount which will have to be raised by the state.

The members of the committee are F. K. Nebeke, A. C. Plummer, Theophilus Smart, A. Hendrickson, Joseph Odell, G. H. Champ, H. E. Hatch, S. A. Langston, Antioch Anderson, W. J. Kerr, H. G. Hayball, J. W. Crawford, L. C. Thorpe, Lorenzo Hansen and M. J. Ballard. Committees were also appointed for every precinct in the county.

BOULEVARD TO CANYON.

Definite Plan for Beautiful Drive Being Followed.

The building of a boulevard to the mouth of the Ogden canyon, which has been under consideration for some time, is at last assuming tangible shape. The movement is favored by the Weber club, which has selected the following committee to handle the matter: John S. Lewis, chairman; H. H. Henderson, John S. Weatherly, John S. Pugsley and Chris Pugsley.

The plan includes the macadamizing of Monroe avenue from Twenty-fourth to Twenty-fifth street, by the city. Both Twenty-fourth and Twenty-fifth streets are macadamized from Washington avenue to Monroe avenue. From this point the proposed boulevard runs on Monroe to Twentieth, east to Jackson, thence north to the brow of the hill, following the hill east across the recently acquired property of Simon Bamberger, intersecting with the canyon road at the first point west of the mouth of the canyon. From Twentieth and Jackson the route follows closely the route of the bench canal and will be practically level, thereby eliminating the heavy grades of the present highway. The grade between these two points will be less than twenty feet.

A general committee of fifteen was appointed to solicit subscriptions and turn in a report tomorrow night so that the board of examiners may know the exact amount which will have to be raised by the state.

The members of the committee are F. K. Nebeke, A. C. Plummer, Theophilus Smart, A. Hendrickson, Joseph Odell, G. H. Champ, H. E. Hatch, S. A. Langston, Antioch Anderson, W. J. Kerr, H. G. Hayball, J.
